Production

Glorify Advertising offers the most accurate solutions for customer needs in the field of production by bringing together the creative services it offers with its customers. Production services such as Advertising Film, Promotional Film and Intro Film, which are indispensable in advertising and marketing processes, can only be prepared with a professional perspective. As Glorify Advertising, we produce strong productions thanks to the creative thoughts of our screenwriters in Commercial Film, Promotional Film and Intro Film projects.

While we consider the production processes as a whole, we work hard to turn the Commercial Film, Promotional Film and Intro Film solutions into successful works by making StoryBoard Drawings, Voice Over, Photo and Video Shooting in the process right after the script writing. As Glorify Advertising, we are proud to expand our service area with 3D Modeling and 3D Studio Animation. We plan our production processes with three different stages, Pre-Production, Production and Post-Production, and enrich it with our professional infrastructure.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Script Writing

Glorify Advertising develops catchy Commercial Film, Promotional Film and Intro Film projects with corporate script writing techniques. The most basic needs of individuals, institutions or organizations aiming to continue the institutionalization process is to use digital marketing and distribution channels in the right direction. At this point, while preparing scenarios and content for their production projects, we also enable our customers to enjoy the privileges of receiving perfect scenarios for commercial films, promotional films and Intro Film projects.

Considering that production services should be considered as a whole, Scenario Writing, Voice Over, Photography and Video Shooting, Post Production, Animation, 3D Studio Animation and Video Montage stages are the main production services offered by Glorify Design in this process.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Promotion Film

As Glorify Advertising, we meticulously carry out the Production and Post Production processes in order to create a perfect work while offering creative solutions for promotional film projects. Glorify Advertising collaborates with its customers before the production of Introductory Films and Intro Films, which are preferred in order to increase the awareness of existing brands. Glorify Design aims to transform Introductory Films and Intro Films into perfect projects at the end of the project.

Introductory Films and Intro Films have a great impact in the field of Advertising and Digital Marketing, which is one of the most important stages of the branding process. Glorify Advertising, all creative processes of production are planned and projected by its professional team.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Advertising Film

Commercial films have become an important tool in influencing people’s purchasing decisions. Consumers can watch the commercial of the product before purchasing the product. Nowadays, it has become very easy for the commercial films to reach the right target audience thanks to the Social Media channels.

As Glorify Advertising, we meticulously carry out the Production and Post Production processes in order to create a perfect work while offering creative solutions for commercial film projects. Glorify Advertising collaborates with its customers prior to the production of Introductory Films and Intro Films, which are preferred in order to increase the awareness of the current brand, and aims to transform the Introductory Films and Intro Films into perfect projects at the end of the project.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Post Production

Post-Production is the stage where visual and audio materials are started to be edited after video shooting. Post-Production refers to all the tasks involved in cutting raw footage, putting those images together, adding music, dubbing, adding sound effects. Post-Production process is largely a collaborative one depending on the size and needs of the project. Scenario Writing, Voice Over, Photography and Video Shooting, Post Production, Animation, 3D Studio Animation and Video Montage stages are the main production and Post-Production services offered by Glorify Advertising in this process.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Dubbing

As Glorify Advertising, we apply the production voiceover as a replacement for the original dialogue with localized recordings in Commercial films, Introductory Film and Intro Film projects. In its simplest form, voiceover is the spoken of the specified scenario in a movie or animation. As Glorify Advertising, we use the voiceover service professionally in production projects such as Commercials, Promotional Films and Intro Films. Glorify Design, which has been producing solutions for its customers to receive the highest quality and professional service since its establishment, develops creative projects in the fields of Pre-Production, Construction Phase and Post Production (Post Production).

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Photo and Video Shooting

Photography and video shooting is of great importance for people, institutions or organizations. As Glorify Advertising, we offer professional Photo and Video shooting solutions in order to promote brand products and services for individuals, institutions or organizations that make up the customer network in the best way and to ensure the best interaction of brand target audiences with their products and services. The most important factor in promoting brand products and services is the professionalism of photography or video shooting.

As Glorify Advertising, we offer creative solutions to our customers in the field of production such as Pre-Production, Production Stage and Post Production (Post Production), Script Writing, Promotional Film, Intro Film, Advertising Film, Voice Over, Professional Photography and Video Shooting.

Google ADS Management

Offers different advertising solutions that appear in search results on google.com with the use of Google Ads (AdWords), or are displayed on other websites through the Display Network and Google's AdSense program. There are two types of paid Google ad sections, one above "natural" or organic links and the other below the results page. Individuals, institutions or organizations can place Google ads by choosing the most suitable type of ad for them in line with their needs and target audiences

Google is one of the most preferred search engines today. For this reason, website owners must also perform Google ADS management in order to rank at the top of searches in search engines. Glorify Design offers its customers the Google Ads management service required for individuals, institutions or organizations to move their websites to the top.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Google Analytics Management

Google Analytics is a free web analytics tool developed by Google to help analyze website traffic. Although “web analytics” seems like a very small area of your digital presence, the effects of Google Analytics are actually extremely important for individuals, institutions or organizations. Google Analytics acts as a center to measure all digital traffic of individual, institution or organization websites.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Google AdSense Management

There are many ways to monetize website traffic. Many of these methods involve advertising third-party products or services to visitors of websites. There are many advertising programs available today that can help make money on websites. Google AdSense is one of the most effective methods in this process. The Google AdSense program was launched by Google in 2003 and is now the most popular advertising program on the Internet. Google AdSense provides a good opportunity for individuals, institutions or organizations to make money from their website traffic. Many website owners aim to improve their businesses by making money with Google AdSense privileges.

Search Engine Optimization (SEO)

Search Engine Optimization (SEO) is a search engine's practice of optimizing website content to be discovered through organic search results. When a search query is typed into a search engine, the search engine looks at all the pages in the search index and tries to list the most relevant results on the user's search result page. To do this, the search engine uses a program called an algorithm. Adapting websites for search engines' algorithms is called Search Engine Optimization (SEO). In this direction, Glorify Advertising develops projects to raise its customers and websites to the top with Search Engine Optimization (SEO). Search Engine Optimization (SEO) consists of stages such as Basic Seo Settings, Full Seo Settings, Web Analysis, Wordpress Seo, Html and Seo, Keyword Analysis and Target Audience Analysis.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Target Audience Analysis

Glorify Advertising performs target audience analysis by researching demographics, language, location, preferences, interests and other criteria within a group. Such fictional profiles form the target audience analysis.

Glorify Advertising delivers the target audience analysis with a professional team as soon as possible. The accuracy, usefulness of information and the correct provision of target audience analysis is only possible with a professional analysis team.

Please contact us to get the most out of our full service advertising solutions or to get more comprehensive information about our professional services by taking advantage of our knowledge, professional staff and experience!

Keyword Analysis

Keyword research is very important to understand at the beginning of the process which search queries the target market and content, products or services trigger in search engines. In this direction, as Glorify Advertising, we define keyword analysis as the most important stage for the Search Engine Optimization (SEO) studies of websites.

Dynamic Web with Search Engine Optimization (SEO)

Search engines want to provide the best service for their users. This means presenting results on search engine pages that are not only high quality, but also relevant to what search engine users are looking for. In this process, Glorify Advertising produces professional solutions for websites to successfully perform various Search Engine Optimization (SEO) studies. Search Engine Optimization (SEO) is used to show your website content to search engines in the most accurate way. If more organic traffic is demanded for web pages, it is necessary to understand the algorithm structure of all search engines, especially Google, and to create a perfect Search Engine Optimization (SEO) plan. Glorify Advertising manages the entire optimization process using HTML5, CSS3, Bootstrap4, Javascript, jQuery, Php or .NET technologies in the field of Search Engine Optimization (SEO).

Blog

While developing Search Engine Optimization (SEO) projects, blog posts are one of the most effective ways to increase the performance of websites in search results. Blog posts should be Concise, Understandable, Relevant to Fields of Activity and Current Website Content. Correctly Planned and correctly analyzed Keywords should be predetermined. These Keywords should be used in blog posts. Articles like these are defined as Search Engine Optimization (SEO) compatible Blog posts. A website's rankings in search results are seriously affected by blog posts. A well-planned Search Engine Optimization (SEO) plan begins to yield serious and lasting results.

It is almost a necessity to have blog posts in the contents of the Websites of Persons, Institutions or Organizations that want to be on the first pages and ranks in search engines such as Google, Yahoo, Baidu, Bing and Yandex.

Note: No one is guaranteed first (1st) rank in any Search Engine Search Result. It may vary according to the contents and correctly implemented Search Engine Optimization (SEO) plans.
